

We are pleased to announce the MHBC Foundation 2017 Scholarship applications are available online through the Community Foundation of the Alleghenies. Students must complete applications and supply supporting documents online. Please provide this link to students who wish to apply, <https://goo.gl/5GCGWA>.

The Health Professions Scholarship Program, (aka, Dr. Bert & Lucile Wiley, Mary Pearl Hunt, Obert, and Blackburn Scholarships), has been in existence for many years and has disbursed up to \$8000 per year per student up to four years towards a career in the healthcare industry. Program guidelines include students must be residents of Bedford County and have been accepted into a health careers program. Students must be willing to commit to work at UPMC Bedford for a period of three years if a scholarship is awarded. This scholarship includes a component tied to financial need. Pre-medical programs are not eligible.

The Thomas E. Bailey Scholarship has existed for approximately seven years. It is a one-time \$3000 scholarship available only to high school seniors attending a Bedford County school. This program is awarded with no employment commitment and is not based on financial need. Pre-medical programs are acceptable.

Completed applications and supporting information are due by March 31, 2017. Please contact me if you have any questions or comments regarding these scholarship programs.

Thank you.
